

## Acknowledgments

Developing this transportation plan involved cooperation from local government, volunteers, the public, and technical staff. To ensure input from a variety of stakeholders for this plan update, a Technical Committee was formed.

In addition, the Greensboro Urban Area MPO's Technical Coordinating Committee provided technical support and feedback throughout the planning process. Likewise, the policy board of the MPO, the Transportation Advisory Committee, played a crucial role in guiding and ultimately approving the final plan.

We express sincere thanks and gratitude to those who have assisted with the plan's development and ultimate adoption:

- MPO Transportation Advisory Committee
- MPO Technical Coordinating Committee
- MPO Lead Planning Agency Staff (GDOT)
- Transportation Plan Technical Committee

### Technical Committee Members

#### Greensboro Department of Transportation

Tyler Meyer, AICP  
Jeff Sovich, AICP  
Peggy Holland  
Craig McKinney  
Adam Fischer, PE  
Jim Westmoreland, PE

#### Greensboro Transit Authority

Libby James
